United States Army Engineer Officer Candidate Regiment
Fort Belvoir, Virginia 22060

AHBBES-OCSH

28 May 1969

SUBJECT: Baggies and Surf Boards

Senior Tactical Officer
Company H, 2nd Battalion
USAEOCR
Fort Belvoir Virginia 22060

1. With the up and coming warm weather and the changing of the coastal currents the temperature of the ocean will rise proportionally with the movement of the seasons. The ocean temperature will reach its height in mid-June through September along the East coast of the United States.
2. In view of this phenomena it behooves the officer candidates of Hotel Company, Section 1 to hold themselves in readiness should the occasion arise that they be called upon to partake in the ritual of summer. The interests of science compel us to accept the challenge of confirming and observing the various physical, biological, and physiological aspects of the rare plastic fantastic creatures that frequent these areas of amphibious living.
3. In order to maintain this state of readiness I request permission for the candidates in 22-H-1 to secure and keep one pair of flowered surfer baggies and one surf board so that they might more efficiently and effectively represent the Officer Candidate Regiment in this noble and worthy endeavor.

APPROVED

SUBJECT: Hair Privileges

Senior Tactical Officer
Company H, 2nd Battalion
USAEOCR
Fort Belvoir, Virginia 22060

1. Class 22-H requests permission lengthen their hair to:

- a) 64/65 inches or if unsuitable,
- b) 21/35 inches

2. Now that we have been Juniors for a length of time it is necessary that we look the part. The obvious way to set ourselves apart from the still floundering new juniors in appearance would be by length of hair. When we look good in actions around the regiment we want people to know without fail who we are. Stages in the program can be easily identified by the length of hair. The stage we are in requires an increase in length of hair.

3. Our new underclassmen will have an additional goal and reward to strive for. We want them to be as highly motivated as possible.
